

Paintable wall covering

The decorative solution that meets all your requirements

A full range of paintable wall coverings

Novelio® is a wide range of woven and non woven paintable wall coverings made of glass fiber for protection and decoration of walls and ceilings. These wall coverings can be used in new construction either in non residential buildings (hotels, hospitals, schools, offices, administration) or in residential buildings (corridors, rented flats or houses). Their high mechanical resistance prevents cracks from appearing. They can also be used in renovation: they easily cover cracks and walls irregularities.

Novelio® wall coverings are soft, pleasing to the touch and easy to apply. Novelio® range, that's also innovative solutions to save application time (EasyPaint, EasyGlue, EasyFix) and to offer better living conditions to the end user (CleanAir, Mold X, Thermal, Acoustic).

Novelio®, a durable protection for walls and ceilings

Several benefits

- For the end user: durable protection of walls and ceilings and better living conditions
- For the applicator: a product that performs well and is easy to install

A decorative, soft and resistant wall covering as are all products in the Novelio® range

- Reinforces delicate surfaces
- Resists abrasion and impact
- Covers all cracks

Also available in pre-painted finish for a perfect result with only one layer of paint (20% time-saving)

Novelio® wall coverings are easy to apply and pleasing to the touch

- Easy to cut
- Soft and pleasing to manipulate
- Bends around corners without any cracks
- High compatibility with vinyl glue

1 - Apply the vinyl glue on the wall evenly by means of roller

2 - Apply the wall covering, smooth it and cut off the excess

3 - After the glue has completely dried, apply two layers of quality paint

Certification of Novelio® paintable wall coverings

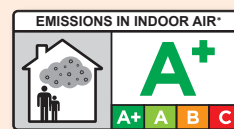

The Novelio® range respects the European requirements for health, safety and environmental protection. All our fiberglass wall coverings meet the conformity criteria applied to decorative wall coverings. Saint-Gobain ADFORS adds the CE 1020 mark to all the labels according to the standard EN 15102.

Certification Oeko-Tex
Standard 100 - no harmful substances

Fire reaction according to the standard EN 13501-1: Euroclass **B-s1, d0** on support A1 or A2

Emission of volatile organic components: Class A + (very low emission of harmful pollutants)
