

Stiff Screen

Ideal solution for
roller applications

Perfect for all retractable windows & doors

ADFORS Stiff Screen is fiberglass insect screen that provides durable and long-lasting protection against all types of insects. This screen is stiffer than standard insect screen to provide excellent usability in retractable applications.

ADFORS Stiff Screen is available in two options; standard Stiff Screen and enhanced visibility stiff screen called ViPer: Vision Perfect Stiff Screen.

Better visibility with ViPer: Vision Perfect Stiff Screen

- Thinner yarns and tighter weave compared to standard fiberglass
- Unique construction allows for sharp and brilliant visibility through windows, doors, and all retractable applications
- Better light transmission, airflow, and insect protection than standard

Both standard Stiff Screen and ViPer Stiff Screen are ideal for all retractable window and door applications. The attractive appearance, excellent outward visibility, and easy installation allows for a wide variety of additional applications.

ADFORS standard Stiff Screen and ViPer Stiff Screen are available in charcoal and gray. Both products are offered in various widths and lengths that can be customized to your application.

Vision Perfect Stiff Screen

Stiff Screen FAQ

What is the difference between standard Stiff Screen and ViPer Stiff Screen?

ViPer Stiff Screen is designed with a thinner yarn than standard Stiff Screen which allow you to be able to see through it more clearly, with a less obstructed view. The thinner yarn combined with a tighter weave provides the illusion of a virtually invisible screen.

What makes ADFORS screen safer?

Stiff Screen is ortho-phthalate free and does not contain any substances covered under California Prop 65. We have maintained the same great aesthetics, properties and processibility that our screen has always had. We have also achieved GREENGUARD Gold certification on this product, which certifies that the product has low chemical emissions.
