

Novelio® Fiberglass Wall Coverings

Novelio® Classic EasyGlue (pre-glued)

Novelio® Classic EasyGlue fiberglass wall coverings come pre-glued for a faster installation and up to 50% saving on application time.

Product Overview

These pre-glued fiberglass wall coverings are an ideal solution for those looking to speed up installation time without having to compromise on design or durability.

Providing up to a 50% saving on application time, the decorative impact resistant wall coverings boast a homogeneous film of glue on the back of the wallpaper, which is activated by water, eliminating the need for glue.

What's more, the Novelio® Classic EasyGlue wallpaper is ideal for crack prevention and abrasion resistance, plus crack covering for wall renovation.

By choosing Novelio® Classic EasyGlue, application time can be reduced by 30% - or even up to 50% if the product is also pre-painted. In addition, there is a material saving of 7 kilograms of glue for a 15m² room, and 7 litres of paint if the product is also pre-painted.

- Pre-glued for fast wall renovation
- Easily washable and re-paintable
- Durable protection of the wall - with 1 or 2 layers of acrylic paint
- Up to 50% saving on application time
