

Pet Resistant Screen

Resists tears and damage
caused by pets

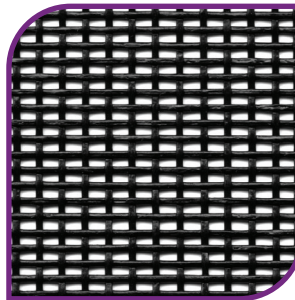

Ultra-strong Pet Resistant Screen for strength, durability & safety

Designed to resist damage caused by household pets, ADFORS Pet Resistant screen is more durable than traditional fiberglass screen thanks to its thick, tear-resistant polyester yarn. It can be used in any door or window and is a smart solution for those who repeatedly have to replace screens.

ADFORS Pet Resistant screen has a coating making it flame resistant by passing the ASTM requirements D3656. ADFORS is also leading the industry by making our full line of fiberglass and polyester screen ortho-phthalate free, ahead of industry standards.

Features and benefits of Pet Resistant Screen:

- Heavy duty screen prevents tears and damage from household pets
- Ideal for areas where pets or children push against the screening
- Durable, yet still allows for excellent outward visibility and airflow

Flame Resistant 

Pet Resistant FAQ

Will this prevent my pet or child from running through the screen?

No. This will withstand light pressure and will resist tears.

What makes ADFORS screen safer?

Pet Screen is ortho-phthalate free. We have maintained the same great aesthetics, properties and processibility that our screen has always had. We have also achieved GREENGUARD Gold certification, which certifies that the product has low chemical emissions.

CONSTRUCTION	COLOR	LENGTH (FT)	WIDTH (IN)
14x10 (0.025 in yarn)	Charcoal	7 ft	36, 48
		100 ft	36, 48, 60, 72, 84
	Gray	100 ft	Custom Order
