

Clear Advantage™ Screen

For better visibility
the choice is clear

Clear Advantage™ is the best choice for premium quality & clarity

ADFORS Clear Advantage™ is the clear choice for high visibility screen. Clear Advantage screen features low diameter fiberglass yarns which, when combined with more yarns per inch, provides the optical illusion that the screen is invisible.

As a premium screen product, Clear Advantage is tested using ASTM D3656 standards. ADFORS is also leading the industry by making our full line of fiberglass screen ortho-phthalate free, ahead of industry standards.

Features and benefits of Clear Advantage Screen:

- Allows up to 50% more natural light and dramatically improves airflow versus standard screening
- Practically undetectable from the exterior which enhances the curb appeal of your home or office
- Finer mesh and weave provides greater insect protection than standard screen

Window above shows standard screen on the left versus Clear Advantage screen on the right.

Clear Advantage™ FAQ

What other differences exist between Clear Advantage and standard screen?

In Clear Advantage, the fiberglass strand is a finer gauge which helps make the average weight of the product 30% lower than the industry standard.

How is Clear Advantage less visible than standard fiberglass screen?

Our use of color and unique design allows for increased light absorption and less light reflection creating lower glare and making the product less visible to the naked eye.

COLOR	LENGTH (FT)	WIDTH (IN)
Charcoal	7 ft	36, 48
	25 ft	48
	100 ft	36, 48, 60, 72, 84, 96
	600 ft	18, 24, 30, 36, 42, 48, 54
