

# Sun Guard Screen

Controls the damaging effects of the sun

# Protect you and your home from the sun's harmful rays

ADFORS Sun Guard screen can help to control the damaging effects of the sun. By installing Sun Guard Screen, you can conserve energy by keeping rooms cooler and also prevent the fading of carpets, drapes and upholstery.

While filtering light and heat from the exterior, the unique weave used in Sun Guard is also specifically designed for better visibility and no distortion from the interior. Sun Guard is available in 2 different styles - Sun Guard 85 and Sun Guard 90. Each style is tested for sun control using the ASTM 4028 standard. ADFORS is also leading the industry by making our full line of fiberglass screen ortho-phthalate free, ahead of industry standards.

### Features and benefits of Sun Guard Screen:

- Extremely tight fiberglass weave for greater protection from sun and insects
- Blocks 75% of sun rays - for a cooler room
- Increased energy conservation by lowering air conditioning costs
- Long-lasting, attractive exterior appearance while providing increased interior privacy

Sun Guard 90

Sun Guard 85

## Sun Guard FAQ

### What is the difference between Sun Guard 85 and Sun Guard 90?

The two products are manufactured with different constructions meaning they each have different amounts of yarn per square inch. Sun Guard 90 has more yarns per square inch and therefore will block a higher % of the sun's rays.

### What % of the sun does each Sun Guard product block?

Sun Guard 90 which blocks up to 85%, while Sun Guard 85 which blocks up to 75%.

### Because of the tighter weave, does Sun Guard block all airflow and light?

No, it doesn't. Sun Guard screen cloths still contain a good amount of open area to allow for airflow and light filtering.

STYLE	% OF SUN BLOCK	COLOR	LENGTH (FT)	WIDTH (IN)
Sun Guard 85	75%	Charcoal	7 ft	36, 48
			100 ft	36,48, 60, 72, 84, 96
Sun Guard 90	85%	Charcoal	100 ft	36,48, 60, 72, 84, 96
