

PET RESISTANT SCREEN

Prevents tears & damage
from household pets

PET RESISTANT SCREEN

Our Pet Resistant screen features a heavy-duty polyester construction that is significantly stronger than standard fiberglass. Designed to resist damage from eager claws and paws, this thick, tear-resistant mesh stands up beautifully to everyday wear. It is the perfect, long-lasting solution for high-traffic doors, low windows, and backyard enclosures.

TOUGH PROTECTIVE MESH

This heavy-duty screen is engineered to withstand sharp claws and repetitive scratching without tearing, fraying, or getting fuzzy. It keeps your doors and windows looking completely flawless longer.

HIGH STRENGTH BARRIER

A torn screen isn't just an eyesore, it can be a serious safety hazard that can let an indoor cat slip out into the neighborhood or allows local wildlife to wander onto your porch. Pet Resistant screen provides a secure, reliable perimeter that keeps your beloved pets safely contained inside where they belong, while blocking out stray animals, raccoons, and other backyard pests.

CONSTRUCTION	COLOR	100 FT ROLL WIDTHS
14 x 10	Charcoal	36", 48", 72", 84"

Designed for your family's well-being

GREENGUARD Gold Certified

Your family's health is just as important as your view. It's the highest global standard for low-emission products, making your patio a truly healthy place to relax.

Why Ortho-Phthalate Free Screen Matters

- » Cleaner air quality
- » Family & pet friendly
- » Protect your local ecosystem by choosing screens that won't leach harmful chemicals into the ground or water

Flame Resistant Mesh

Pet Screen mesh features a specially formulated, fire-resistant coating that passes strict official testing (ASTM D3656) ensuring your enclosure is as safe as it is it can be.
