

SUN GUARD SCREEN

Blocks damaging effects
from the sun

SUN GUARD SCREEN

Sun Guard screen acts as a high-performance thermal shield, blocking up to seventy-five percent of incoming solar radiation lowering your home cooling costs, reducing exterior glare, and keeping your living spaces beautifully shaded.

Because every home faces the sun a little differently, we offer this advanced protection in two distinct styles so you can choose the exact performance your space needs

40 X 40 ULTIMATE HEAT PROTECTION

Features a dense weave designed for windows, doors, or patio panels that bear the absolute brunt of the afternoon sun. Sun Guard acts as a powerful barrier that maximizes shade, significantly lowering ambient temperatures while providing a private, cooler environment.

54 X 18 PERFECT BALANCE

The ultimate solution for spaces where you want both climate comfort and ventilation. This style effortlessly filters out destructive UV rays while keeping your views open to fresh air.

HIGH PERFORMANCE THERMAL BARRIER

This durable fiberglass screen acts as a protective shield that actively blocks up to seventy-five percent of the sun's rays before they ever reach your glass or seating areas. By stopping that intense heat at the perimeter, you can enjoy a much cooler living space while noticeably lowering your monthly utility costs.

PROTECTIVE GUARD AGAINST SUN DAMAGE

Specialized mesh acts as a proactive guard against sun damage, keeping your furniture, flooring, and decorative fabrics looking new and vibrant.

LIGHT FILTERING MESH

Gently softens the intense brightness and reduces blinding glare without making your space feel dark and gloomy. Provides a shaded, visually comfortable environment where you can comfortably read a book, look at a screen, or watch the kids swim.

Designed for your family's well-being

GREENGUARD Gold Certified

Your family's health is just as important as your view. It's the highest global standard for low-emission products, making your patio a truly healthy place to relax.
